- “Native American Student Services” is now called the “Native American Cultural Center”, the phone number is (970) 491-1332, page 17

Tutoring Services on Campus, page 7

- Updated text for “College of Natural Sciences Science and Mathematics Tutorial Hall” now called “The Institute for Learning and Teaching”, page 7:

Learning Programs in The Institute for Learning and Teaching (TILT) offers a range of learning opportunities for students. Housed on CSU’s historic Oval, the Institute’s Learning Programs offer services related to student success and academic excellence – including workshops, faculty lectures, special events, and tutoring services. Come check out the Great Hall – a beautifully updated room with a historic feel created specifically for open student study and tutoring. This room and others within the Institute provide space for individual and group study, classrooms for special learning events and supplemental instruction, and tutoring programs in the natural sciences and liberal arts. The program’s goals are to enhance the learning experiences of all students, elevate good teaching to its highest levels, and foster academic excellence. We encourage all students and faculty to visit TILT.

TILT Learning Programs
